PORTSMOUTH, N. H., FRIDAY, OCTOBER 1, 1915.

Portsmouth Daily Republican Merged  
with THE HERALD July 1, 1902.

PRICE TWO CENTS.

## PACKERS MAY FORCE GOVERNMENT TO ACT

(Special to The Herald)  
Washington, Oct. 1.—Pressure on the part of the western meat packers is expected to force the state department to change its plan of attacking the British prize court rulings. Secretary Lansing had practically decided that the packers would have to exhaust their legal resources in London and carry their appeals to the highest British courts before this government could intervene on their behalf with the explanation that they have been denied justice.

### ATTACKS INCREASING IN VIOLENCE

Paris, October 1.—German counter attacks are increasing in violence all along the western front, particularly north of Loos and in Champagne, where fresh troops brought from Russia have been thrown against the Allies' forces.

### SPANISH STEAMER FOUNDERED

(Special to The Herald)  
London, October 1.—The Spanish steamer Milan Carrasco has foundered off Lurena, Spain, according to a Joya dispatch. All on board perished. The steamer was of 697 tons.

## BULGARS INVADE SERVIA

### Have Crossed the Frontier at Three Points.

(Special to The Herald)  
Dispatches to home newspapers from Belgrade report that Bulgarian troops have invaded Serbia at three points, driving back border patrols that attempted to oppose them. The dispatches are printed with the comment that official confirmation has not yet been received.

### POULTRYMEN, ATTENTION!

A meeting will be held Tuesday evening at 7.30 o'clock at the Board of Trade rooms, Pleasant street, opposite postoffice. The object of this meeting is to form a Poultry Association. All interested are invited to be present.

## ANXIOUS TO PLACE LOAN QUICKLY

### Allied Governments Are Pressing N. Y. Bankers' Syndicate for Money.

(Special to The Herald)  
New York, October 1.—The vigorous effort being made by the Underwriters Syndicate of New York bankers to place the Anglo-French war loan of \$500,000,000 in this country as quickly as possible indicates two things: First, that the Allied governments are pressing the syndicate for their money; second, that the Anglo-French credit commission will be seeking another war loan in the United States probably within six or eight months. By new terms agreed upon temporary bargain prices are being offered for a few days by which big investors may subscribe to the loan at 95 1/4 instead of 98, the price which will subsequently be charged.

## SIX CADETS DISMISSED

### Four Suspended and Fifteen Set Back for Hazing at Annapolis.

(Special to The Herald)  
Washington, October 1.—The President today acted on the Annapolis Naval Academy hazing cases, ordering the dismissal of six cadets, the suspension of four for one year without pay and the setting back one year in their studies of 15.

## TO TAKE ACTION SOON

(Special to The Herald)  
Washington, October 1.—Officials close to the President declared today that they expected definite action for the elimination of Captain von Papen, the German military attaché as an embassy. It is understood that Count Von Bernstorff already has made it plain to him that the usefulness of the captain in this country is at an end.

## LAYING OF CORNERSTONE POSTPONED

### Exercises at Arlington Cemetery to Be Held Next Week.

(Special to The Herald)  
Washington, October 1.—Because of the inclement weather which it was feared would seriously endanger the health of the Grand Army veterans, now in this city, the laying of the cornerstone of the memorial amphitheatre in Arlington cemetery has been postponed until next week. A torrential rain transformed the section of Arlington where the amphitheatre is being constructed into a quagmire and made the roads to the cemetery impassable. Officials of the G. A. R. agreed to the postponement, although they admitted that few of them would be able to remain over for the ceremony at which president Wilson will preside.

### NORWEGIAN BARK BURNED

(Special to The Herald)  
London, October 1.—The Norwegian bark Aetle has been burned by a German submarine. The crew was saved. The Aetle was set on fire after being halted by a submarine south of Cape Naze, Norway. Boats containing the bark's sailors were towed by the submarine to shore.

### SALISBURY BEACH DRY

Thursday was the last day of the season on which the holders of the three summer liquor licenses at Salisbury Beach could do business. One year-round license is held by the proprietor of the Hotel Dennis.

## YORK MAN HAS A NEW CHECK SWINDLE GAME

A new wrinkle in the check game was pulled off by a York man on Mr. J. W. Thompson of Market street on Wednesday, and now the York county authorities are looking after the man who originated the trick. The man in question, well known to Mr. Thompson, came to his place of business and offered a check drawn in his favor by a York fish dealer in payment of a bill. The check was for \$20.70 and the bill \$2.50. Mr. Thompson cashed the check, giving the York man the balance, \$18.20. The next day Mr. Thompson deposited

# TERRIBLE LOSS OF LIFE IN HURRICANE

## South in Grip of Worst Storm in History ---132 Killed and 500 Injured---Enor- mous Property Loss will Reach Over \$5,000,000---Storm Moving East.

(Special to The Herald)  
Memphis, Tenn., October 1.—One hundred and thirty-two persons were killed in the West Indian hurricane on Wednesday and Thursday. More than 500 were injured and approximately 700 are missing according to reports received by railroad officials here today. The property loss will reach more than \$5,000,000. Appeals for help are coming in from many places. The storm today was central over the upper Ohio valley and was moving eastward with diminished intensity, and an accompaniment of heavy rain.

According to the statement of the railroad authorities the dead in New Orleans number 89 and the property loss in that section will run into the millions. Thirty dead and 500 injured are reported from various points in the region between New Orleans and Mobile. A report from Jackson, Miss., said that 61 persons were believed to have lost their lives in the territory from the Mississippi river to the bottom adjacent to Pearl River. The country in that section is in a pitiable condition. Hundreds of families in the

lowlands were marooned in trees and appeals for food have been sent out. More than 600 people in that region are reported to be missing but it is believed that the greater number of them will be heard from later. At Natchez 13 were killed and many injured.

## TO DISSOLVE PICTURE TRUST

### U. S. District Court Hands Down Opinion in Favor of U. S. Government.

(Special to The Herald)  
Philadelphia, October 1.—Judge Dickenson in the U. S. district court today handed down an opinion in favor of the United States government in its suit under the Sherman anti-trust law to bring about the dissolution of the so called "motion picture trust."

A special train composed of two baggage cars and a passenger coach bearing "The Bohemian Girl" company passed through this city this morning on the way to Concord.

## GERMAN ATTACKS REPULSED

### Fighting Proceeding Under Conditions Favorable to the Allies.

(Special to The Herald)  
Paris, October 1.—German counterattacks launched during the night in the Champagne and Artois districts in an effort to regain the position captured by the Allies were repulsed. The fighting now in its seventh day is proceeding under conditions favorable to the Allies, despite the fact that they are being assailed by Germany's finest troops, including the famous Prussian guards.

## BIG NEW PLANT TO BE INSTALLED AT TAUNTON

Magee Range and Furnace Co.  
to Locate There—Ready  
by First of Year.

Taunton, Sept. 30.—The city of Taunton, the Chamber of Commerce and the Taunton Planning Board, headed by Alfred B. Williams, are jubilant over the coming to this city of one of the biggest industries of its kind in the country, as evidenced by the big force of construction men now at work building a big new foundry and manu-

facture of Magee ranges, furnaces, heaters, etc.

### Homes for Employees.

Homes for the employees of the company and their families, which number over 500 people, will be arranged for in the vicinity of the fair grounds, where many fine building sites are to be found close to the electric car line and about six minutes' ride from the main square of Taunton. The planning board, under Mr. Williams' direction, has undertaken a sort of municipal development competition in which the various wards of the city are pitted against one another for the ranking place in the cost of building and development operations. The building of the Magee plant easily handed the victory to the ward which includes the

### To the Business Men of Portsmouth

The prosperity of a city is in direct proportion to the local pride. Where local pride runs high, prosperity has a firm foothold. Such a town is a good place to live and do business in.

Paint helps to a remarkable degree in spreading an impression of prosperity throughout a community. It gives a fresh, new, inviting look wherever it is used. Municipal buildings, stores and homes feel its good effects. Growing business is bound to be one of the direct results of a liberal use of paint, not from any magic in the paint, but because of the pride which is stimulated.

### COLONIAL DAMES MANSION AND GARDNER HOUSE TO REMAIN OPEN

The Aldrich Memorial having closed after a very successful season, there is an impression by many that the "Colonial Dames Mansion" and the interesting "Gardner house" may be closed also. These latter houses are still open to the public. The "Colonial Dames Society" holds its closing business meeting Tuesday, Oct. 5, followed by a luncheon. The house will not be dismantled until Nov. 1st, but the regular attendants will be there only until the fall meeting. These interesting houses have been visited by many it being considered one of the attractions of "our old town by the sea," to have the privilege of entering three historic and finely designed houses of long ago. The courtesies of the Portsmouth Athletic Club have also been appreciated, in allowing many to see their unique wall paper and beautiful club quarters.

# BERLIN ADMITS SETBACK BUT CLAIMS DEFEAT OF BRITISH FORCES AT YPRES

## Report 500,000 Austro-German Troops Massed Along Serbian Frontier.-- Russians Holding off Von Hinden- burg's Attacks.--Italians Gaining Against Austrians.

Paris, Sept. 30.—The number of Austro-German troops concentrated on the Serbian frontier is estimated at 500,000 and 350,000 of these are Germans.

Berlin, via wireless to London, Sept. 30.—German troops defeated both wings of the British armies in the great battles of yesterday and last night in the region from Loos north to Ypres, it was officially announced this afternoon.

The war office, however, admits French gains in the fighting for the Ypres heights and temporary French successes in the Champagne.

Paris, Sept. 30.—In continuation of the general offensive movement on the western front, the French have captured an important defensive work of the Germans south of Rippont, it was officially announced by the war office today.

In the Champagne, French troops have gained a footing at various points on the German second line of defence, the official statement adds.

London, Sept. 30.—With the British on Hill 70 just north of Lens, not more than two miles away, and the French on Hill 140, five miles to the southwest and both continuing to advance, the Germans must soon get out of Lens, with its radiating railways, which will bring into the foreground the possibility of retaking Lille. The official report from Paris says merely that the crest of Hill 140 had been reached, so that, presumably, a counter-attack is

of this important position at stake. Rain, fog and soggy ground have been hampering both the contenders and hindering the activities of aircraft. It is admitted by German army headquarters that French troops succeeded in penetrating the German lines in two small sections near Souchez, south of Lens, in the Artois region. French attacks south of Arras, Berlin says, were easily repulsed. According to the French report the only resistance of the Germans in the Artois district was an extremely violent bombardment of the allied positions east of Souchez. In the Champagne district the French troops have gained a footing in the German second line of defence. They have taken an important defensive work south of Rippont, which is four miles northwest of Massiges, back of which lies an important junction on the railway which parallels the German front in this region. The taking of these important supporting works of Rippont, completes the conquest of the first German defence line. Berlin concedes that the French have gained ground in this region, announcing that Hill No. 191, north of Massiges, has been lost to the Germans, while a brigade that pushed through the German outer line at one point in the Champagne was broken up, 800 men being captured and the others destroyed. Berlin declares the district west of Batte de Taurie and that to the west of the Navarin farm are mentioned in connection with the Champagne advance. The French are declared even to have passed the German line in this latter region, being unable to hold on

there because of the heavy German artillery fire. They maintained all the second line points captured, however, it is claimed. In this district, the French are pushing for the strategic railway line just behind the German front, and according to their claims must not be very close to it. Airmen have bombarded various stations along this line. The offensive of the Allies thus far has been confined to stretches of the front amounting to less than thirty miles in all. The general belief in England is that these attacks are only the prelude of what is coming.

Berlin Admits a Loss

Berlin, via London, Sept. 30.—Loss of another position in France to the Allies, as a result of the great battle now in progress, is announced in the evening statement from the war office today. The Germans lost Hill No. 191, Hill No. 191 is a position in the Champagne region north of the town of Massiges. The text of the statement follows:

"Yesterday the enemy continued his attempts to break through our lines only in the Champagne region.

"South of the Meuse-Ypres road a position occupied by two English companies was blown up.

"North of Loos our counter attack progressed slowly.

"Southeast of Souchez the French succeeded in penetrating our lines in two small sections. Fighting continues.

"A French attack south of Arras easily was repulsed.

"Battles between Rheims and the Argonne were very bitter. South of St. Marie-Py an enemy brigade broke through our outer line of trenches and came in touch without reserves, which, during the counter attack, captured eight hundred prisoners and destroyed the others.

"All French attacks between the Semmy-Py-Souain high road and the Challenger-St. Menchould Railway were repulsed partly yesterday after bitter hand-to-hand fighting in which the enemy suffered heavy losses.

"Early today a strong enemy attack on the front northwest of Massiges broke down. North of Massiges a hill, number 191, which was very much exposed to the enemy's flanking fire, was lost.

"On the other front artillery duels and mining engagements of varying intensity took place.

Hindenburg Pressing On

Petrograd, Sept. 30.—Reviewing the situation, the correspondent of the London Times says that, according to prevailing opinion in Russian military circles, Field Marshal von Hindenburg, regardless of the menace to Germany's western front, has brought up fresh forces at Osmund and is preparing another blow at the Russian right

wing in order to sweep southeast in an effort to bar the route of retreat for the Moscowite Baronovitch army. For this reason, the correspondent says, the general staff emphasizes the importance of the line drawn from Vitebsk to Ivenets, thirty-five miles from Minsk, as von Hindenburg's real objective. The crossing of the Styx by large Teutonic forces and the revival of the offensive at Kotki also constitute a new and formidable factor with which General Ivanoff must reckon.

Russian Centre Hard Pressed

The official communication from headquarters issued last night reads as follows:

"In the region northwest of Friedland ineffective German attacks were delivered at Liger and Tobouksh northwest of Bishahon. The attacks were repulsed by artillery fire.

"At Dylnsk there has been a continuous cannonade. The German attacks on the front comprising Ghetene Swenton Lake and Medonouss Lake were repulsed by our fire. The fighting continues. Minor actions have been fought in the region of Koshany.

"In the region north of Kieve and southeast of Osmund the enemy attacked energetically and drove back the Russians somewhat. South of the Pripiet the enemy attacked several times at Iratorisk. At first all attacks were repulsed, but with the aid of reinforcements the enemy contrived to repulse the Russians to the right bank of the Styx. The village of Novo Alexiniec, was twice attacked by the enemy on Tuesday under cover of a hurricane of artillery fire. The enemy was repulsed on every occasion by the Russian concentrated artillery and rifle fire.

"In the region of Koupchintze on the Strypa west of Tarnopol, there was progressive artillery fire. In the course of terrible fighting the Russians occupied the enemy's trenches and also one of his fortified positions west of Chodazkew. In continuation of a further offensive the Russians after strong artillery preparation rushed to the attack and clearing the entanglements captured the enemy's trenches east of Koupchintze.

Gain Toward Tolmino

Rome, Sept. 30.—The official communication issued yesterday by the War Office says:

"In the Tolmino zone the enemy has pressed harder and harder on the Santa Maria height. He attempted during the night of Sept. 27-28, and that of 28-29, two surprise attacks on our positions, but was repulsed on each occasion.

"Last night our mountain detachments attacked enemy positions on the spurs of Monte Nero descending towards Tolmino, and succeeded in forcing him back at several points, inflicting heavy losses and taking sixty pris-

oners and two machine guns.

Deny Sinking of Battleship

The Italian battleship *Imedetto* Brin, on board which yesterday there was a violent explosion following a fire is badly wrecked but still afloat, according to the *Messaggero*. The newspaper adds that it is rumored that the accident was due to the short-circuiting of an electric wire on board the vessel. The work of clearing away the wreckage is proceeding actively. Several guns already have been taken out and preparations are being made to lift out the bigger one, the newspaper says.

NEW HAMPSHIRE COLLEGE NOTES

NEW HAMPSHIRE LUMBER FOR FOREIGN BUILDING

New Hampshire College, Durham, N. H., Sept. 30.—"There is every reason to believe," said Prof. Carl Woodward, head of the forestry department here today, "that New Hampshire lumbermen will help rebuild the devastated towns of East Prussia after this war is over. A recent statement from Germany, published in the trade journals, announces that lumber worth \$1,000,000 will be needed, and the forests of the eastern states, because of their relative nearness should have a marked advantage over those of the Pacific northwest. In fact, New Hampshire has already profited by the European market created by the war, having sent one big shipment of spruce to the allies for trench building.

"Translated into board feet, the German announcement indicates that something like 100,000,000 will be needed. White pine is what will be wanted. New Hampshire can supply it, and its enterprising business men probably will get their share of the trade if not all of it.

"The amount cut in this state is about 300,000,000 board feet. These were the figures for 1913. About two thirds of this amount is the soft wood that will be wanted in East Prussia."

# WILL FORCE 600 SALOONS TO WALL

New York, Sept. 30.—The increase of \$300 in the cost of the state retail liquor license fee, which becomes effective tomorrow, will force 600 saloons out of business in Manhattan and Brooklyn and reduce the city's share in this revenue about \$300,000, according to estimates of the officers of retail liquor dealers' associations. The increase brings the cost of the licenses up to \$1500.

The excise commissioner for Manhattan said today that he believed that people are not drinking as much now as in past years, and that in his opinion moving pictures keep men from saloons.

Owing to the increased taxation, the Liquor Dealers' association announced today that the price of a pint of beer will be increased from ten to fifteen cents tomorrow.

## WOMAN'S BOARD OF MISSIONS IN ANNUAL MEETING

PORTSMOUTH WOMEN PRESENT AT FORTY-FIRST SESSION HELD AT EXETER.

The forty-first annual meeting of the Rockingham County Auxiliaries of the New Hampshire Branch of the Woman's Board of Missions was held in the chapel of Phillips church, Exeter, on Wednesday. The exercises were opened at half past ten by a devotional service conducted by Mrs. L. H. Thayer of Portsmouth.

The report of the bye meeting in 1914 and the treasurer's report were read by Mrs. Henry Packer of Greenland; the report of the junior work by Mrs. William A. Odell. These were followed by an informal open meeting. Miss Frances A. Mathes of Portsmouth presiding, during which many suggestions regarding programs for the coming winter were presented.

Miss Julia D. Locke of the Boston Associated Churches gave an account of America and the Americans in America, based upon personal experiences.

After a luncheon and recess, there was a song service with solos by Miss Susan E. Borthwick of this city. The report of Miss Lillian A. Odell of Greenland showed the vast amount of literature and help to be used in the work of the junior department.

Miss A. J. Gilson of Mount Silinda, Africa then addressed the meeting, subject Personal Experiences as a Missionary in Rhodesia.

Miss Locke gave a monologue, giving the excuses found by one woman for not attending the missionary meetings.

The exercises were closed by resolutions of thanks to the Exeter ladies for their hospitality and to Mrs. Seavey for her faithful service as president for ten years. The officers for the coming year are Mrs. John L. Seavey, president; Mrs. Albertus Dudley, Exeter, vice president; Mrs. Henry Packer, Greenland, secretary; Mrs. William A. Odell, Greenland, junior secretary; Delegates elected to Burlington meeting were Mrs. Martha Locke, Hampton; Miss Thompson, Exeter; Mrs. Agnes V. McCarthy, Kingston.

# For all shortening and frying Cottolene is supreme

Cottolene is an exact combination of the purest, richest, most carefully refined cottonseed oil and the choicest beef stearine obtained from selected, high grade leaf beef suet. Cottolene is itself one of the purest of pure foods.

Cottolene makes foods more digestible—more wholesome—makes them taste better. Use it for every kind of shortening and frying and for making pies, cakes and pastries.

# Cottolene

is not offered as a substitute or as being "just as good" as other shortening and frying fats. It is an original product and better than anything else that you can use for shortening or frying.

You can use Cottolene over and over for frying. It does not absorb tastes or odors. Always heat Cottolene slowly. Pails of various sizes. Arrange with your grocer for a regular supply.

## Fall Touring Increasing.

In many respects the next six weeks will be the best of the season for automobile touring. While there is beauty in the rural districts at all times of the year, there is a charm in nature during the autumn that is not equalled at any other season. Automobilists are rapidly learning this and the result is that there are many more tourists on the roads in the fall months than was formerly the case.

In October there is a quality in the air that is not only invigorating, but peculiarly charming, and the scenery at this time of the year, particularly among the hills and mountains, is beyond description. When the foliage is at the height of its autumn coloring it presents a picture which, once seen, is never forgotten.

To bowl through the country at such a time in an automobile is indeed a pleasurable experience. In most of the sections visited by tourists the roads will be found in good condition, free from the dust of summer, and also free from the mud that formerly characterized country roads in the spring and fall, this being due to the great improvement in roads that has been made in recent years. Places where the roads are not kept in proper condition will be shunned by the tourists, for there are enough good roads to make it unnecessary to travel over poor ones.

As an incentive to fall touring the rates at some summer hotels are reduced, especially in sections where the bulk of the year's business is done in the heated season. But aside from anything of this sort there are inducements enough to call the autoists to the countryside in the fall. The bracing air, the charming scenery and stimulated appetites produce a condition that is highly favorable to body building, and no one can take a tour through country regions at this time of the year without being very materially benefited by it, both in body and mind.

For all of these reasons there will be more automobiles on the roads this fall than ever before at this time of the year. The pleasures and benefits to be derived from fall touring are becoming more generally understood, and all who are able to take such outings are the better for it. Their patronage is appreciated at the hotels whose summer guests have departed, and so there is benefit all along the line.

A Chicago veterinary college has opened its doors to women, believing there is a good opening for them as veterinarians. One thing that led to this step is the prevalence of the foot and mouth disease in Illinois, which is causing considerable apprehension. A number of women have taken up the study, and what the results will be remains to be seen. The impressive fact is that there are few fields of activity occupied by men today that are not being entered by women.

The scientific weather men assert positively that there is no such thing as what is commonly known as the "line storm," but it will take some time to convince the farmers that such is the case. At least, they will be in no mood to accept such a theory until they have finished picking up the apples that were shaken from the trees by the recent big September gale, which was quite near enough to the 21st to pass for the "line storm."

An "international" mosquito war is now being planned. The mosquito is a little fellow, but he is not so easily to be exterminated as some have imagined. The truth is that it looks very much as if he was here to stay in spite of all wars against him, "international" or otherwise.

Now come charges of grafting on a Chinese railroad. Recently there were reports of grafting in connection with the purchase of supplies for the Russian army. All of which goes to show how rapidly the methods of "advanced civilization" are encircling the globe.

The New York stock market is booming at a rate to make up for the time lost during the closing following the beginning of the European war. And before the boom ends there will be many men who will wish the exchange had remained closed.

A football authority says the game is very old, and that the Spartans used to play games between battles. About this time of the year, if this country were at war, it would seem more like battles between games.

The mackerel must be pro-German. They are reported to be entering German waters in huge schools. The German fishermen are busy and large additions are being made to the nation's food supply.

Under all the circumstances it was a most remarkable and memorable review that took place in Washington Wednesday. The world never witnessed exactly such a spectacle before.

## CURRENT OPINION

### Preparatory Schools Should Train Students in English Language.

I believe a preparatory school for boys and girls should be of the co-educational type; that it should be independent of a college, or at least should be on a separate campus.

Further, the curriculum should contain the usual college entrance requirements, with special emphasis on English. It should provide an opportunity for boys and girls who do not intend to go to college to get a practical course which will fit them to earn a livelihood. Facilities should be provided for work in domestic science, manual training and commercial subjects.

As to military training, I have never regarded this as accomplishing enough to pay the school for providing it or the student for taking it.

Abundant provision for clean athletics, with gymnasium drill, will do all military training can do.—By J. A. Marquis, President Coe College, Cedar Rapids, Ia.

## B. & M. DID NOT SPEND MILLION TO KEEP OUT GRAND TRUNK

Concord, N. H., Sept. 30.—Emphatic denial that the Boston and Maine railroad spent \$1,000,000 to keep the Grand Trunk out of New Hampshire was made by Financial Vice President William J. Hobbs of the Boston and Maine at today's session of the public service commission, which is investigating expenditures by the railroads in New Hampshire.

Mr. Hobbs declared that the expenditure of \$875,000 covered the legal expenses of the entire system for a period of three and one half years. He was unable to say what part of this amount was spent in the Grand Trunk fight, but thought it probable that Mr. Hobbs may be able to enlighten the commission on this point when he testifies on Monday.

At the beginning of the session Attorney John B. Benton, counsel for the commission read an article which appeared in the Enfield, N. H., Advocate, attacking the commission for its attitude toward the Boston and Maine-Grand Trunk traffic agreement of 1912, printed late this year. This article he said was published not as an advertisement but was paid for by the Boston and Maine. Mr. Benton said he introduced the article because the bill for inserting the article happened to be on the top of the pile of receipts which appeared in the vouchers of Warren T. Billings, one of the publicity agents said to have been employed in waging the Grand Trunk fight.

Mr. Benton dropped the matter here and said he would call Vice President Hobbs of the Boston and Maine, in charge of the auditing department to answer some questions regarding the "propaganda expenditures" of these railroads for publicity.

Vice President Hobbs said that he

did not know that Mr. Weston did not receive the full amount of the Weston vouchers until this hearing. Mr. Benton questioned Mr. Hobbs at some length regarding the Byrnes advertising campaign. Mr. Benton produced a voucher showing that the Boston and Maine railroad paid to the New Haven railroad July 18, 1913, the sum of \$22,180.33 as its part of an advertising expenditure which included New York and Brooklyn papers, etc.

Mr. Benton asked why the Boston and Maine should pay forty per cent of the New Haven's advertising in New York papers. There was nothing in the voucher to show, Mr. Hobbs said, but it was approved as one of the expenditures which were to be divided. Why the division was made he did not know.

Mr. Benton was asked regarding the various expenditures made under this voucher but the witness knew nothing of the details. Mr. Hobbs promised to furnish the commission as soon as possible copies of articles entitled, "Mr. Brandeis's Career," which were paid for in the itemized list of the voucher in question.

If the railroad can show that the vouchers of Mr. Billings indicate that the items covered anything for which the road could legitimately spend money or anything in connection with the Grand Trunk matter, Mr. Benton said he would like to have it done before the close of the hearing. He also stated that he would recall Treasurer Webster of the Concord and Montreal with his vouchers; would examine Harry J. Brown, local counsel for the Boston and Maine on Saturday morning and would expect George H. Steele of the New Hampshire League's Association to be present next Monday morning.

## WIRELESS TELEPHONE HEARD IN HONOLULU

New York, Sept. 29.—While all over the world was being shocked the news this morning that the human voice had been sent by wireless telephony 2500 miles through the air from Washington to California, a lone operator in a frame hut at the foot of a towering mast on the shore of Pearl Harbor, Honolulu, knew that the human voice had been heard almost twice the distance for he had listened to words spoken in Washington, 4400 miles away.

The man was Lloyd Espenchied, an engineer of the American Telephone and Telegraph Company who had been sent quietly to the far Pacific island by Theodore N. Vail to await the test, which came as a climax to more than a year's preparation. Espenchied carried with him only a receiving instrument, and therefore was unable to talk back to the naval wireless station at Arlington, Va. It was hours before he could get wireless telegraph connection with Mare Island, Cal., and tell J. J. Cury, chief engineer of the telephone company that a miracle had been wrought. The news was relayed to Mr. Vail and the announcement of the accomplishment was made from the office of the telephone company at 15 Day street at noon.

The distance over which Espenchied heard naval officers at Arlington talk is greater than the distance from New York to Paris, New York to Berlin, greater than from New York to London, 3400 miles; from New York to Berlin, 4400 miles; and from New York to the North Pole, 2100.

Today's announcement of talking to Hawaii followed the announcement on Wednesday night that the station at Arlington had talked with the naval station at Mare Island, a distance of 2500 miles. In the latter case a relay was made by wire telephony that the conversation had been heard.

### WHY ROB YOURSELF?

When you buy this newspaper the assumption is that you like its news or views. But do you get full value out of it? Do you take advantage of all the opportunities it offers? Are you a reader of the advertising? Do you realize that each advertisement is a direct message to some person or group of persons? And that the very news most of interest to your welfare is likely to be in some one of these announcements? If you are overlooking the advertising columns of this newspaper you are robbing yourself of a large part of its service.

## PEOPLES' OPINION

### Where Do They Get Off?

From the line of "bull" coming from the crew of the U. S. S. Tennessee, one would think that the howling team from that ship are burning up the bowling alleys in Portsmouth with a world of speed. Their latest deed is a challenge to any team in Portsmouth. Where do they fit in with local bowlers? Why not look around among the navy men on some of the ships at the navy yard and meet them before they announce themselves as champs. Up to date I can see no medals adorning the chests of the Tennessee men for bowling, outside of what they do when "shooting the bull" in the ship's barber shop and around the scullery.

ROOMER FROM THE LEONIDAS.

## THE HERALD HEARS

That engineers of the Boston and Maine are making a survey of the Portsmouth Electric railway. That the Portsmouth Military Band made a hit with the concert program on Thursday evening.

That they got something of an encore that which came from horns on autos. That the concert was short and sweet and should have lasted an hour more. That the people were disappointed when they heard the last number played at 9 p. m.

That police is not improving the Dover police department according to statements of people from that city. That both parties are said to be credited with a share of the misup.

That many of the residents don't approve of going back to the old system of police management.

That Captain Chandler of Ladder 1, got a great hand from his admirers along the line of march on Thursday.

That the cavalcade landed him at the corner of Ladd and Market streets was good enough for the Kaiser.

That the captain says he had the best looking company in the whole outfit.

That the ladies along the line did not overlook the captain and his faithful crew.

That he feels proud today and has reason for it.

That the platoon of police had more military appearance than any part of the parade.

That the in state women want to make Portsmouth the place for the convention every year.

That Hampton river toll bridge, becomes free today.

That the people are wondering when the same will go into effect on the Portsmouth and Kittery, and New Castle and Dover Point bridges.

That the veteran flower were added in the parade on Thursday.

That the Portsmouth Fire Department could not find any roads to the central fire station on Court street during the visit of the state inspection members.

That while beer is under down in New York the price is going up.

That the advances of George Dwyer by the police board, make a difference with 650 saloons in Manhattan and Brooklyn.

That the Mayor's League Association are playing 99 for ten, and have jumped the price from 12 to 15 cents for a pint.

That the Greenway road is under construction and there were not more completed.

That the sailors on the ships at the navy yard have taken to bowling.

That they are doing some fine work on the local address.

TO CONTINUE LECTURES IN OLD CUSTOM HOUSE

The series of lectures which have been conducted by Emmanuel Vaughn and Albert in the Chapel Tent on the corner of South street and Church street, was concluded by two lectures on Bible Astronomy by Elder R. J. Day. Another series will be commenced that evening, the subjects will be told by the Rev. Christian Prince of the Eastern Baptist Church, and the Rev. J. J. Vaughn with music by the choir. The subjects will be: "The Bible and the Stars," and "The Bible and the Planets." The lectures will be held on the 10th and 11th of October, at 7:30.

The hall where this series is to be conducted is well lighted and will be heated by gas. Expenditures possible have been made to make it pleasant and comfortable for those who come to hear.

There will be services on Saturday and Sunday afternoons, and Wednesday, Friday and Sunday evenings, at 7:30. The afternoon service will be held at 3 o'clock.

The question box features of these meetings will be continued. Anyone having questions concerning matters of religious, or any phase of the Bible, who will put his questions in the box here, they will be answered.

The program for next week is as follows:

Sunday, October 3, 2:30 p. m., the present war foretold by the Bible.

Sunday, 7:30 p. m.—"Who will be Earth's Next Ruler?"

Wednesday, 7:30 p. m., God's plan and man's idea in the history of the world.

Friday, 7:30 p. m.—"Is there a personal Devil?"

Many of the visiting friends of the Portsmouth Baptist church, and the people who know how to show their appreciation.

## BOWLING

Tennessee Defeated Hannibal Ten men the Arcade Alleys.

The U. S. S. Tennessee bowling team defeated the team from the Hannibal last evening, taking three of the four points in their ten pin match at the Arcade alleys. The only point taken by the losing team was the first string, which they won by 35 pins. The Tennessee team took the two other strings and the total pin fall.

The highest single string was rolled by Rick of the losing team, hitting total for 200. The high three string total was 515, made by Goldsmith of the winners. And the high team string was 825, rolled by the Tennessee team in their last string.

The Tennessee team is out with a challenge for any team in the city for next week (big plus).

The scores:

U. S. S. Tennessee		Hannibal

## TO FORCE BULGARIA TO DISARM

(Special to The Herald)

London, October 1.—Bulgaria will be forced to disarm or define its position. Advisers received today show that Germany is as anxious as the Allies as to what Bulgaria's final action will be. A Rome dispatch says that an ultimatum will be sent to the Bulgarian government from Germany and another from the Entente powers.

When you want news that is not 48 hours old, read The Herald.

## RED SOX ARE NOW CHAMPIONS

Baseball these days seem to be just one pennant after another. The Red Sox are now indisputably the owners of the American League 1915 pennant. The Red Sox players were out at Braves field yesterday afternoon, watching their future rivals, the Phillies, inaugurate a grand beating. But the Detroit Tigers at the same time were playing off a postponed game with the Browns. Though the Tigers performed on their home sward, they never had a chance. Long Carl Wellman, whose one best stunt is defeating Ty Cobb and Company, was working according to program. Carl lured for the Browns and the Tigers were beaten 5 to 2.

That defeat ended the race. The Red Sox can now lose all their remaining seven games and still nose out. The Tigers have but two more to play and can't win anyhow.

### ECHOES FROM THE CONVENTION

The trip to the navy yard on Thursday afternoon was one of the best features of the convention for the visiting firemen. They were allowed to go everywhere and were shown the submarine now well along in construction.

There were nearly two hundred more firemen here than were expected by the committee who based their estimate on former conventions. It shows plainly that the firemen, like other organizations, are always glad to come to Portsmouth.

The Dover auto chemical which was here for show on Thursday has not been accepted by the city as yet and from the tone of the Dover papers, it has not been altogether satisfactory.

The Portsmouth Band made its first appearance on Thursday and made a decided hit. There seems no good reason why they should not get some business.

The clubhouse at the playgrounds was a big success and thoroughly enjoyed by the visitors.

It is now President William F. Woods of the New Hampshire Firemen.

### Y. M. C. A. IN SESSION AT CONCORD

The first of a series of four get-together conferences of the employed officers of the Young Men's Christian Association of New Hampshire will be held at Concord today, opening at 11 a. m. in the Association building at the corner of North State and Warren streets.

The devotionals was conducted by Albert E. Roberts of New York and at 11:30 there was an address on "Present Day Problems in the Association Field" by State Secretary E. W. Hearn of Boston. A business session and lunch followed.

The afternoon session at 2:30 was held in the Y. M. C. A. hall and was given up to group conferences, the leaders of which were city secretaries, E. W. Hearn; county men, T. E. Roberts; students, Wallace Ross; physical directors, George Atwood.

At 5:30 o'clock there will be a get-together banquet at the rooms of the city association. The address of welcome will be by John C. Tilton, president of the Concord board of directors and an address will be given by Albert E. Roberts of the county work department of the international committee.

New Orleans at Guaymas.

The Eagle has sailed from Cape Haytien for Port au Prince.

Saturn from San Francisco for Mare Island.

Denver from La Paz for San Diego.

Solace from Tompkinsville for New York yard.

The Franklin has been ordered placed out of commission at Norfolk, Va., yard as soon as practicable.

### Have Historic Quarters.

Under the consolidation of the pay officers made on Thursday, the officers and enlisted force will hereafter be found in the Peace Conference room in the general store building.

### Arrive Middle of Month.

The mine planter San Francisco is expected to arrive at the yard about Oct. 15.

### Getting Old Foundry Ready.

Thomas J. Durning, scrap metal expert, is engaged in preparing the old yard foundry for the work of scrap smelting to be carried on exclusively at the local yard. He expects to have it ready for the work in a week.

### Two Weeks in Dry Dock.

The Hannibal and Leachman were put in dry dock today where they will remain for about two weeks.

### Concluded His Duties Here.

Lieut. James Parker, Jr., concluded his duties at the yard today and left for Newport to take up his duties on the destroyer Jarvis.

### Charges Revoked.

The record charges against Chaplain C. H. Perkins to the local yard have been revoked.

### Does Not Mention Yard Bids.

In the report of the bids for the several submarines opened in Washington on Thursday none of the figures submitted by any navy yard were given out, but it is thought that Portsmouth is among the lowest of any naval station for the work.

### KILLED IN AUTO ACCIDENT.

(Special to The Herald)

Melrose, Mass., Oct. 1.—One man was killed and 7 others were injured this afternoon when two autos crashed at the junction of two streets here. The dead man is William Murray of 159 Winnisquam street, Chelsea.

### Have a Chance

The bowling team of the U. S. S. Tennessee are certainly making a record with the balls and pins on the local allies and feel that they can take a fall out of some of the Portsmouth bowlers. Here is a chance for that crack team of strong men from the Portsmouth Brewing Company.

## REINFORCEMENTS SENT TO BORDER

(Special to The Herald)

Brownsville, October 1.—Reinforcements of cavalry and artillery reached the American troops at Progresso early today and a detachment was immediately sent to Mercedes as a result of a report to the military authorities that Mexican raiders have cut all wires leading to the town and were preparing for an attack.

## MUSICAL TRIO

### SCORED DECIDED HIT

THREE ACTS AT THE COLONIAL THEATRE MAKE UP STRONG PROGRAM AND PLEASED LARGE AUDIENCE

For an act composed of but three men, Archie Nicholson and company scored one of the biggest hits any act playing Portsmouth ever made. The big audience present at the beautiful theatre last evening were more than delighted with the actual musical merit of the team and the real comedy introduced. Unlike many comedy musical troupes, their fun in no way detracted of the musical value. All three men were masters of their instruments, their opening and closing brass riffs numbers being applauded for several minutes. It was one of the best musical offerings yet presented.

The little musical comedy farce, "George Did It," was also well received. The solo numbers were well presented and the dancing and singing of the big chorus was very fine. The girls were pretty and the opening scene was as well dressed as any of the big productions. The stage setting was one of the best features.

Prize, with his comedy illustration act, came in for his share of appreciation. His act is different from the usual run of "singles" and was pleasing and entertaining to old and young alike.

The entire vaudeville bill, together with a fine picture program made up a show without a weak spot.

## PERSONALS

A letter received from Mr. R. E. Walcott, who with Charles W. Hain and Thomas A. Ward are on their way to the San Francisco Fair, states that they had a fine trip through Canada and saw much evidence of the war. At Vancouver they saw a regiment starting for Turkey by the way of the Pacific. It was a heart-rending sight to see the parents and relatives leaving the young men of the regiment.

Dr. and Mrs. Fred S. Towle and Mr. and Mrs. Charles A. Towle returned on Thursday evening from a ten days' automobile trip as far west as Shasta Falls. They report delightful weather with the exception of the gale of Monday. In Canada, where they were one day last week, the effects of the European war was much in evidence.

Mr. A. A. Mooney of Manchester, formerly of this city has just purchased the Household Furniture Company of Elm street, Manchester.

Sherman D. Newton, Shirley Stimpson and Charles J. Flanagan, are the Portsmouth representatives at Exeter Academy. The school opened last week and now registers 515 scholars, or 25 less than last year.

The wedding of Miss Gladys Benick, daughter of Judge and Mrs. James W. Benick of Concord, to Joseph S. Wilson, Dartmouth, 10, of Concord, at the Unitarian church in that city on Thursday evening was a social event of the year at the capital city. The bride is well known here.

Mrs. Edith Trefthen of Glencliff, Sanatorium who has been visiting her aunt, Mrs. Herman Trefthen of Exeter has returned to Glencliff, N. H.

Mrs. B. B. Dixon has returned from a business trip to New York and will shortly open a dressmaking establishment at Exeter in connection with her rooms in this city.

Mrs. Frank W. Hackett of New Castle is driving a handsome new 1916 Buick sedan.

The wedding of Miss Mildred Sawyer of Exeter Beach and Mr. Karl Karlsson of Philadelphia will be solemnized at Exeter Beach, Wednesday, October 27.

A. D. Wentworth and family are on an auto tour to Washington, D. C. and the South.

Judge E. L. Gifford is attending the Rockingham Fair today.

Messrs. Harry E. Boynton and Charles H. Hatchelder who are on a bicycle trip through New Hampshire and Vermont were at Manchester, Vt., on Thursday and today left for a trip through the Berkshire Mountains.

New York papers announce the granting of a divorce to Mrs. M. B. Nelson, a summer resident of York. By the decree Dr. Nelson pays his former wife \$1500.00 alimony, and has to contribute \$500.00 a year toward the support of their daughter.

### CARD OF THANKS.

We wish to express our sincere thanks to our neighbors and friends who in any way assisted us in our late bereavement in the loss of husband and father; also for the many beautiful flowers.

Mrs. J. L. Godfrey and Family.

The floral tributes were as follows: Willow, "Hu-band"; spray of pink, Mr. and Mrs. Frank Hayes and family; flat bouquet of mixed flowers, Mr. and Mrs. S. L. Edwards and family; spray of pink, Mr. and Mrs. Charles Moody and family; flat bouquet of pink, Mr. and Mrs. Charles Flanagan and family; flat bouquet of pink, Mrs. Vaughan Coleman; wreath of roses, Stuart Post, No. 1; mound, "Father," Mr. Dorset Godfrey; bouquet of roses, Mrs. Lough Coleman; pillar, Little Lowery A. C. flat bouquet of roses, Mrs. G. H. May, and Mrs. Maize Madden; mound of pink and roses, Mrs. Charles Gifford.

come and Mrs. James Carter; mound of pink and roses, Mr. and Mrs. John M. Edwards; wreath of pink and family wreath of roses, Mrs. George Gifford; spray of pink, Mr. and Mrs. Fred Atterby and Mrs. Anne Howard; bouquet of roses, Mr. and Mrs. Fred Hulse and family; spray of pink, Mr. and Mrs. J. A. Warren; flat bouquet of pink, Mrs. Virginia Maurey; large spray of pink, Mrs. J. A. Warren; Union Veterans' Union; wreath of pink, Mrs. J. A. Warren; Women's Relief Corps; spray of pink, Mrs. J. A. Warren; Post No. 21; pillar, Mrs. H. B. Hulse and family; spray of pink, Mr. and Mrs. Frank Hayes and family; wreath of pink and roses, Mrs. Charles Gifford.

## IRENE FENWICK STAR IN GREAT PHOTO-PLAY

GEORGE KLEINE'S, "THE WOMAN NEXT DOOR" WILL BE AT THE PORTSMOUTH SATURDAY AND TUESDAY.

Miss Irene Fenwick, one of the best known moving picture stars is featured in the big five reel photo-play, "The Woman Next Door" which is the offering at the Portsmouth Theatre for Saturday and Tuesday. "The Woman Next Door" is founded on the successful stage drama of the same name, written by Owen Davis.

**The Story**  
When "The Woman Next Door" moved in it started every Mrs. Grundy in the neighborhood. Just because the pretty stranger preferred solitude to company, kept her front porch tidy and mingled not at all, she became instantly the cynosure of prying eyes and the guileless victim of many a wailing tongue.

Adjoining the cottage of The Woman Next Door lived the Graysons, fair and unprejudiced folk, inordinately proud of their big son Tom who was then away on a railroad building mission in Mexico. The Graysons made much of their neighbor, and Cecilia, with a sister's match-making instinct, wrote Tom, jokingly, to warn him against her will.

And Tom, meantime, had troubles of his own. Disgusted with his work and environment and the unwelcome friendship of Jack Lake, a never-do-well promoter of mines that never existed, Tom headed for home. Thus he and The Woman Next Door met for the first time.

Away off in Mexico, Jack Lake commended himself over a table littered with his worthless mining stock. Tom Grayson's name would sell the stock and even though Tom had once refused, it was worth another trial. Lake packed his grip and thus, not for the first time, met The Woman Next Door.

Soon Lake discovered the budding romance and one day, when the little stranger was visiting the Grayson's, he blustered in with outstretched hand "Hello Jenny!"

In the silence that followed, the shoulders of their pretty neighbor heaved with feeling. Judge Grayson frowned and Tom stiffened with resentment. Angered, Lake stepped forward.

"This woman is Jenny Gay, the notorious divorced actress!"

Only Tom followed the swaying little figure. In a cloistered nook among the rosebuds she told him all—told him of that early fight against tremendous odds, her rise to fame, her unhappy marriage to the wealthy Whittier, Lake's mad infatuation and the way it brought.

To see "The Woman Next Door" Miss Irene Fenwick's delineation of pathetic Jenny Gay is a work of infinite art.

You cannot fail to enjoy it.

**BY THAT TIME ONE HUNDRED VESSELS WILL BE WAITING TO GO THROUGH**

Panama, Sept. 30.—The Panama Canal will be reopened to traffic Oct. 1, but that there had been another earth movement which made a postponement necessary. Major General Goethals is expected to arrive from the United States in time for the reopening of the canal. There are now sixty-three ships waiting to pass through the canal, and, counting those now on the way to each end of the waterway, there will probably be one hundred vessels of all kinds in the Panama waters by the fifth of October.

## RELIEF EXPEDITION AFTER THE EXPLORERS

Portland, Me., Sept. 30.—Word is expected momentarily at his home in Freeport of the return of the relief expedition which went in search of Prof. Donald R. MacMillan, who two years ago went to explore and chart Crocker Land, the new land which Rear Admiral Peary believes he saw from the summit of Cape Thomas Hubbard in June 1905, three years before his discovery of the North pole, approximately 130 miles across the Polar sea to the northwest.

The auxiliary schooner John H. Cluett left New York last July to carry supplies to the MacMillan expedition and bring it back, if it was decided to return this year. The party was expected to be found at Etah on the west coast of Greenland, in which case there would be no delay, but if it became necessary for the relief party to search in Jones' sound south of Etah, for the explorers, the Cluett may not return to civilization for another month.

MacMillan, after learning that Crocker Land was not in the latitude and longitude where it was supposed to be,

and possibly does not exist, planned to start last spring with Eosign Fitzhugh Green on a 1500-mile trip to explore the region south of 120° and around Etah Land, and if game were plentiful, return by way of Jones' sound in June.

The first word may be received by wireless from Indian Harbor or Little Harbor, the two most northern wireless stations on the Labrador coast, or, if weather and wind are favorable, the slow going auxiliary schooner may take advantage of the opportunity to push through to Belle Isle or Point Amour in strait of Belle Island, or may come through to St. John's, N. F., or Sydney, N. S.

Vilhjalmur Stefansson, who started from Alaska at about the same time Professor MacMillan left New York has reported the discovery of an extensive land or archipelago northeast of Prince Patrick Island, which scientists think may extend to the vicinity of where Crocker Land is still thought by some authorities, including Admiral Peary, to exist and expects to continue his exploration of it next year.

## INCREASE OF DARTMOUTH STUDENTS

ENROLMENT SHOWS AN INCREASE OF SEVENTY-FIVE—FRESHMAN CLASS LARGER

Hanover, N. H., Sept. 30.—Although the registration of students at Dartmouth is not yet complete, significant figures were given out today at the registration office. These figures are complete up to the first faculty meeting, held the first of the week, but in comparison with the final figures of last year they show somewhat of an increase. This year's registration figures, not yet completed, are: Seniors, 255; Juniors, 250; Sophomores, 409; Freshmen, 474; total, 1388. Last year's complete figures are seniors, 253; Juniors, 272; Sophomores 361; Freshmen, 437; total, 1313.

The office has no remarks to make on a further increase in this year's enrollment, but it is assumed that the enrollment of the freshman class will increase.

**Dartmouth Affairs**  
The annual fall meeting of the Phi

Kappa Society will be held Tuesday evening, Oct. 14, in the College Hall. Graduates and undergraduates, who are members of the society are to be present, and men of last year's first and second honor groups will be invited. The subject for the evening will be "Intellectual Democracy in Life."

Because of the resignation of R. F. Chatter, '16, of Hanover, N. H., from the position of business manager of Jack O'Leary, H. S. Walker, '17, of Lynn has been appointed to fill his place.

## REORGANIZATION OF B. & M. URGED

PRES. HUSTIS DECLARES THIS NECESSARY TO RESTORE CREDIT TO ROAD.

Boston, Sept. 30.—The keeping intact of the present Boston & Maine railroad system under a form of reorganization that will restore its credit was recommended by President James J. Hustis in his annual report issued to the stockholders today.

"This is the first essential," President Hustis said, "and when attained, it should be followed by a period of preparation for the development of

the properties so that their traffic may be handled efficiently and economically with good service. It is believed that the public will not fail to grant that measure of support which will sustain such a service."

The company's operating account showed a deficit of \$334,162 compared with a deficit of \$2,941,742 for the previous year.

President Hustis said that the saving in expenses had been accomplished without neglecting the maintenance of the property.

## STEP TO DREDGE MERRIMACK RIVER

U. S. ARMY ENGINEER COMING TODAY ON THE PROJECT

Former Congressman Eugene L. Reed has received a commendation from Col. W. E. Craighill, of the corps of engineers, United States army, that the latter will visit Manchester today for the purpose of initiating an official investigation into the merits of the proposed extension of the ship channel in the Merrimack river from Lowell, the terminus of the project now under way, to Manchester.

This visit of Colonel Craighill is expected to be preliminary to a government survey of the project, with an accompanying report from the engineers corps as to its feasibility.

Inasmuch as the notice of Colonel Craighill's coming was short, Congressman Reed has been unable to arrange for a public meeting and in lieu of such a meeting he is arranging for an informal luncheon today at 1 o'clock at the Berryfield club where he has invited Governor Spaulding, Mayor Spaulding, Mayor Crowley of Nashua, John R. Willis, William Marcotte, Perry H. Dow, A. B. Jenks and Frank Knox to meet Colonel Craighill and informally discuss the matter.

## ROADS DISCUSS VALUATION IN WASHINGTON

INTERSTATE COMMERCE COMMISSION HEARS REPRESENTATIVE GIVE FIGURES ON REPRODUCTION AND DEPRECIATION.

Washington, Sept. 30.—Representatives of all the principal railroads of the country appeared today before the Interstate Commerce Commission to begin presenting their views on the main question involved in the physical valuation. They appeared at the request of the commission and are expected to take three days to complete oral argument covering all phases of the work. Representatives of the roads filed a five hundred page brief discussing physical valuation from a technical standpoint. It presents their views of the reason for the enactment of the valuation act, of how to figure the cost of reproduction of a railroad; how

to figure appreciation and depreciation the value to be placed on land owned by carriers, and what may be properly included in the valuation of a carrier under the term "owned or used for the purpose of a common carrier."

## "THE BOHEMIAN GIRL"

At the Portsmouth Theatre on Monday the Aborn Opera Company will be seen in its much talked of Parisian version of Balfe's greatest work "The Bohemian Girl." That music lovers and theatregoers generally approve of the innovations introduced by Milton and Sargent Aborn in their highly respectable revival of this favorite old opera is best attested to by the rounds of applause that are nightly bestowed on them. Newspaper writers, wherever they appear in their praise of the Messias Aborn's enterprise, to those who have only seen Balfe's work in its old form it would seem entirely out of place to introduce a troupe of acrobats, horses, geese, monkeys, dogs, chickens, etc., and still those who have seen both the old and the Aborn modern version have wondered why these seemingly incongruities have not always been parts of "The Bohemian Girl," so consistently do they fit. A specially selected cast, orchestra and ballet and immense chorus combine to make this one of the most important organizations on tour. The cast includes Henry Taylor, Mildred Rogers, George Dunstan, Francis Tyler, Ralph Nicholls, Edith Allan.

## FIRST ONE READY

The first of the navy's proposed fleet of dirigibles is practically ready for delivery, the navy department was informed on Monday. It is being made by the Connecticut Aircraft Company and embodies improvements which American naval officers noted during their observations with the armies in Europe. It has features that for military reasons are to be kept secret.

The dirigible will be assembled in Boston after which the machine will be taken apart and shipped to the navy aeronautic station at Pensacola, Fla., where the trials are to take place. The navy is now building a floating hangar and a hydrogen plant at Pensacola for the accommodation of its dirigibles.

The first of the navy's war balloons is comparatively a small one, being about 180 feet long. It will be equipped with a 110 horse power engine and twin propellers of the swivel type. Army and Navy Register.

### BABY CONFERENCE HELD AT CITY HALL

District Nurse Instructs Mothers in Matter of Caring for Infants.

On Thursday afternoon, from 4 to 5 o'clock, the District Nursing Association under the supervision of the acting district nurse, Miss Annie L. Colon, held a baby's conference at City Hall in a room assigned for that purpose. There was a good attendance of mothers, babies and friends. The object is to teach young mothers the proper method of dressing and bathing infants and every attendant was much interested in the demonstration given by Miss Colon. In establishing this work the association should have the cooperation of the people of Portsmouth and especially of mothers. The conferences are held weekly and though not generally known, the attendance on Thursday showed a good increase of both mothers and children. Miss Esther Foster, the regular district nurse who is at present on a vacation, is working hard on this matter and requests mothers to interest themselves in the weekly conferences as a duty on their part.

### HARVEST DINNER.

Served Under Auspices of  
Storer Relief Corps.

The ladies of Storer Relief Corps served a bounteous harvest dinner in G. A. R. hall on Thursday noon, which was well attended. The tables were attractively set and the menu served was a most tempting one. It consisted of all the usual good things that go to make up a real old fashioned harvest dinner.

The following was the committee in charge of the affair: Mrs. Blanche Blake, chairman; Mrs. Marion J. Greene, Mrs. Bertha Smart, Mrs. Nellie V. Moody, Mrs. Annie Goodrich, Mrs. Mabel Smith, Mrs. Elizabeth Ballen, Mrs. Sarah Burnham, Mrs. Emma Marshall.

If the Allies opened the paper mill as a manufactory for munitions would the German war fleet be likely to come over here and start something?

## DOVER'S NEW POLICE CHIEF TAKES OFFICE

Chief of Police Thomas W. Wilkinson of Dover assumed his new duties today, having taken the oath of office before the commissioners on Thursday evening. He succeeds Edward S. Clark who resigned when the present police commission was appointed.

The commissioners on Thursday received the resignation of Inspector Murphy, as they intend to abolish the office of Inspector. Several other changes are expected to be made in the department.

Chief Wilkinson comes to the department after years of experience as Deputy Chief and he has a wide knowledge of the city and its police needs.

### POLICE COURT.

William Spodovetz and his wife, Ethel, who are domiciled on Brewster street were both in the municipal court today as the result of a row on Thursday afternoon. William was charged with assault on his wife, and the wife charged with drunkenness. The husband denied the charge but the wife told the court that she took several punches at her and she exhibited marks to the court as the result of the fracas. In the midst of the family quarrel, Ethel jumped through a window and right into the arms of the police. She claimed that she made this exit to get away from Bill who came after her with a razor. Bill said Ethel was handling the truth in a rough manner; that he had no slaving instrument displayed and that she got all the cuts and bruises by the glass in her flight through the window. He also stated that Ethel was inclined to be jealous and claimed that she was untrue to her marriage vows. Bill denied that there was another woman in the case and that she was responsible for the entire combat. The court has talked it over with Ethel on other occasions but her husband was a stranger before the desk. The case ended with a fine of \$5 and costs \$6.13 with three months in jail. The jail sentence was suspended. Her husband paid \$5 and costs \$6.13.

Otto Bigger, a German sailor from one of the army boats, was ashore last night and the visit to the third floor made him fussy instead of jubilant. He was talking into war arguments on Congress street and told them all that the Kaiser had the Allies on the run. He got away with it all until he walked into a drug store where the proprietor was just closing up, and he wanted to take charge of the establishment. He did not get very far before Officers Kelley and Phillips closed in on him and he went to the city camp for the night. It cost him \$10.90 today.

**80 Acre Farm For Sale  
in Rye, N. H.**

About 40 acres in grass, 12 in tillage, and the balance in the pasture, with about 25-acre pine woodlot with a good growth on it. The orchard has about 40 trees, and the place cut 50 tons of hay last year.

The property is on the main road from Greenland to Rye, five minutes walk to Greenland Station; heavily shaded with three very large old elm trees. There is a never-failing water supply.

The main house has eight rooms, bath, and set tubs, with fireplaces in each room. Barn is 50'x60', with a tie-up for 12 cows, a box-stall, and running water. There is a carriage house and other small buildings, and two cement silos.

This is one of the best farms in Rye, very high and slightly on the main road, near railroad station, schools and stores. Very desirable for an automobile inn, or for an all-the-year round farm, or could be used for a summer place.

## TAKING THE VALUATION OF ELECTRIC ROAD

A crew from the engineers' office of the Boston and Maine railroad have arrived in this city to take the physical valuation of the Portsmouth Electric Street railway which follows an act of congress ordering the same on all railroads. The crew working here consists five men working under the supervision of Asst. Engineer E. S. Childs of Lynn, who has with him Hugh Stone, Edward Wilson, Oswald Francis, Alexander Lamie. The work is expected to take until November first, and up to date they have completed the survey of the Plains loop. These men travel in a special car which is equipped as a drafting room and where plans are made by Mr. Stone as fast as the preliminary work comes from the hands of the outside crew. Engineer Childs and his men have just completed a survey of the terminal division at Boston which took a year of hard work and the plans of which cover a blue print ten feet long and six feet wide, gives the public an idea how much work is required in such an undertaking and what the expense is to the railroad. At present they are at work on Market street and the Christian Shore loop.

FAREWELL TENDERED  
REV. AND MRS. HAYES

By the Young People's Class  
of the South Eliot Methodist Church.

A farewell party was given to Rev. and Mrs. Allison J. Hayes by the members of the Young People's Class of the Methodist church, South Eliot at Epworth Hall on Thursday evening. Rev. Mr. Hayes has been the teacher of this class the past two years and all greatly regret that he must sever his connection with the class which has been of the pleasantest association in the past.

The evening was pleasantly passed with music and the playing of games, after which refreshments were served. At this time Rev. Mr. Hayes was presented with a handsome set of silver mounted military brushes, and Mrs. Hayes was given a beautiful bouquet of carnations.

Upon departure everyone expressed their regret at Rev. Mr. Hayes' leaving and wished him much success for the future in his new endeavors.
